TalkBridge AI

Every message replied instantly

Building the bridge between brands and customers

Powered by Gemma · Zernio · Twilio

The Communication Crisis

3.8B

Social Media Users
Worldwide

All generating comments, DMs, and
mentions every single day.

76%

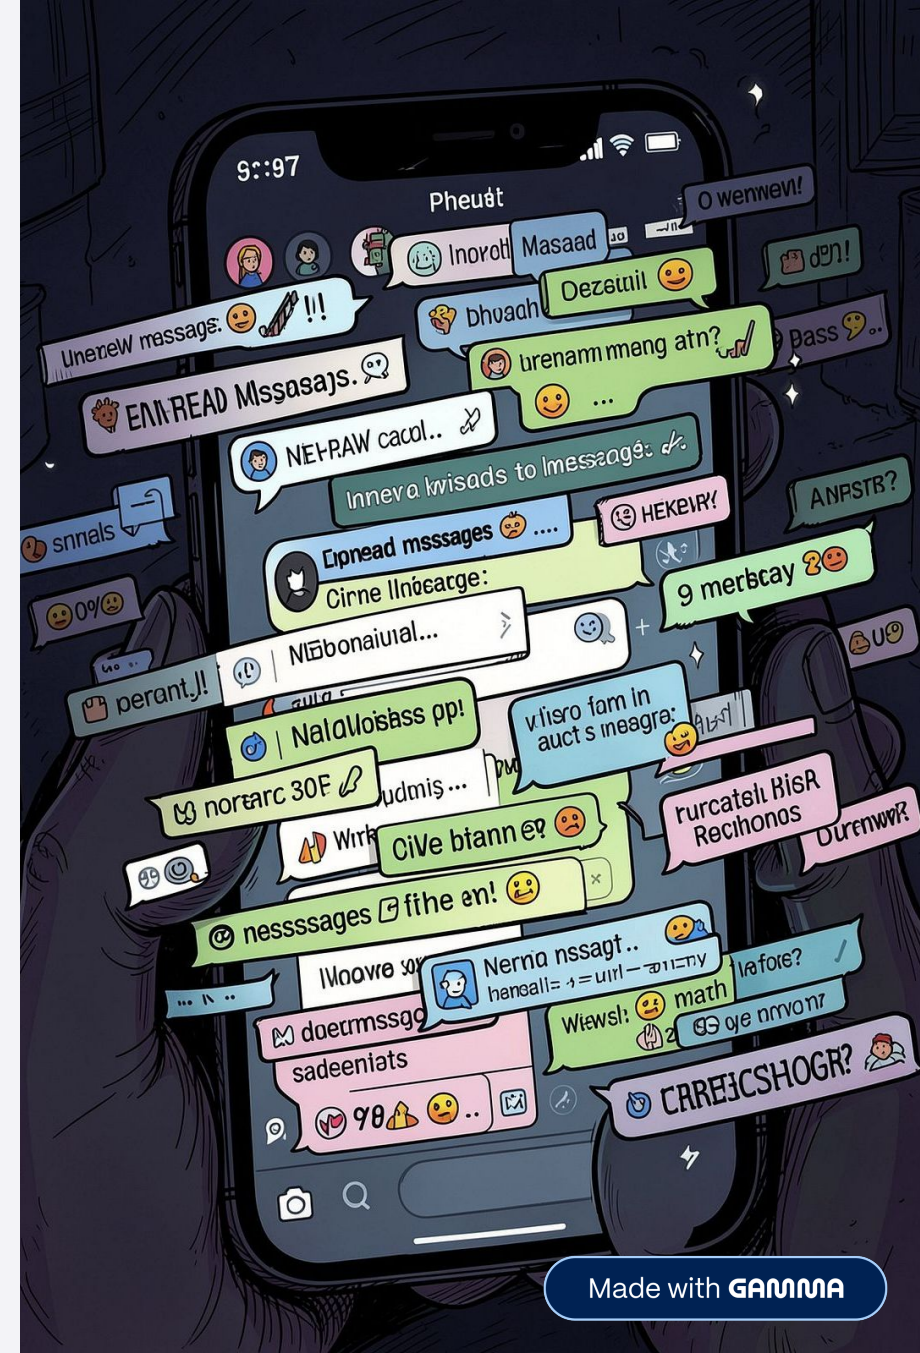

Brand Comments Go
Unanswered

Within the first hour — the critical
window for customer trust.

Ksh o

Earned From an Ignored
Comment

Every unanswered question is a lost
sale.

Fragmented. Manual. Broken.

The TikTok Brand

600+ comments per video. 1 social media manager. Most go unanswered for days.

TIKTOK · INSTAGRAM

The WhatsApp Seller

Orders via WhatsApp voice notes. Manually transcribed. Customers waiting 24+ hours for replies.

WHATSAPP · SMS

The Viral Complaint

One complaint goes viral. Brand notices 6 hours later. Reputation damage: irreversible.

EVERY PLATFORM

This is not a technology problem. It's a coordination problem.

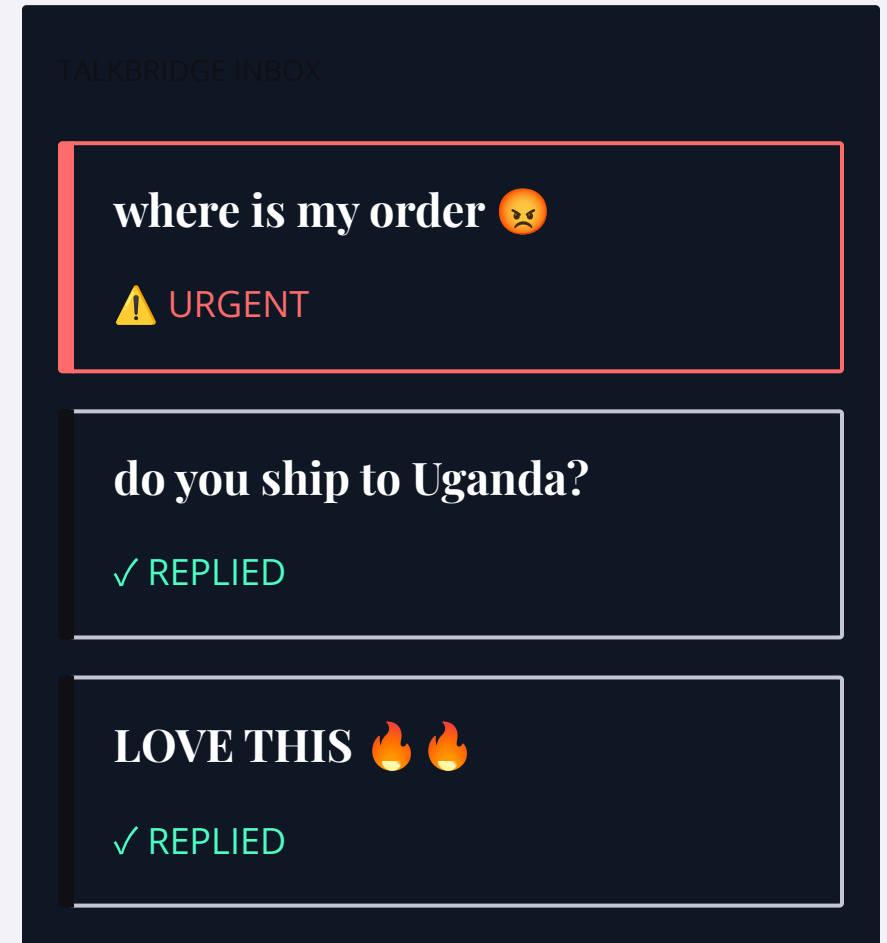

Introducing TalkBridge AI

THE SOLUTION

One AI platform. All your channels.

TalkBridge aggregates messages/comments from TikTok, Instagram, WhatsApp, and SMS into a single intelligent inbox. Gemma AI classifies every message, drafts on-brand replies, and publishes them via Zernio — automatically. High-urgency issues reach a human agent in seconds via Twilio SMS.

- Aggregates all channels
- AI understands every message
- Responds across platforms

What TalkBridge Does

AI Message Triage

Every message classified by intent, urgency 1–10, sentiment, and language in under 200ms.

GEMINI AI

Multi-lingual Support

Handles English, Swahili, and code-switching. Built for African markets from day one.

EN · SW · MIXED

Cross-platform Publishing

Zernio API publishes AI replies to Twitter, Instagram, and LinkedIn simultaneously.

ZERNIO API

Instant Escalation

Urgency score ≥ 7 triggers immediate SMS to a human agent via Twilio. No delay.

TWILIO SMS

Voice Integration

ElevenLabs synthesizes voice replies. Whisper transcribes incoming voice notes.

ELEVENLABS · WHISPER

Unified Dashboard

Every message, AI reply, and escalation in one real-time Supabase-powered view.

SUPABASE REALTIME

Built on APIs That Matter

We didn't reinvent the wheel — we bridged it.

INTELLIGENCE LAYER

Gemma AI

Intent classification, urgency scoring, and reply drafting

INFRASTRUCTURE LAYER

Zernio

Social publishing API — posts AI replies to all connected platforms

HACKATHON SPONSOR

Twilio

SMS and WhatsApp delivery for escalations and human agent alerts

SMS · WHATSAPP

Supabase

Real-time database — stores all messages, classifications, and reply logs

POSTGRES + REALTIME

How TalkBridge Works

From comment to reply in under 4 seconds.

Every step in this pipeline fires automatically — from webhook receipt to published reply — in under 4 seconds. No human touch required for standard messages.

📄 ⚠️ **Escalation path:** Urgency $\geq 7 \rightarrow$ Twilio SMS fires to human agent within seconds $\rightarrow$ agent replies directly

See It Live

LIVE DEMO

TalkBridge AI — Instagram Comment Flow

Instagram comment → Gemma AI → Zernio reply → Twilio escalation

4 seconds · Real Instagram · [Live pipeline](#)

What you're about to see is a real comment on a real Instagram post — not a simulation.

Where We're Going

NOW · Q3 2026 — LAUNCH

Core Product: Instagram + WhatsApp, Claude AI classification, Zernio publishing, Twilio escalation, Supabase dashboard

Q1 2027 — INTELLIGENCE

Deeper AI: Brand voice fine-tuning, predictive urgency scoring, sentiment trend analytics, auto-escalation rules engine

1

2

3

4

Q4 2026 — EXPAND

More Channels: TikTok direct integration, Twitter/X support, Telegram channel support, Mobile app (iOS + Android)

Q2 2027 — SCALE

Market Expansion: Pan-African rollout, agency white-label product, enterprise API, Series A fundraiser

What We Need to Win

THE ASK

\$30,000

seed funding / prize

40% — Infrastructure

Cloud hosting, API costs at scale, Supabase Pro plan

35% — Go-to-Market

First 100 SME customers, Nairobi launch campaign

25% — Product

TikTok integration, mobile app, voice fine-tuning

BEYOND FUNDING

Mentorship

Connections to Kenyan SME networks and potential enterprise customers

Zernio Partnership

Official integration partner status — we're already using their API

Cloud Credits

AWS, GCP, or Azure startup credits to scale our infrastructure

The Team

Kelvin Nyambane

Founder & Lead Developer

Built TalkBridge end-to-end in 48 hours. Full-stack engineer with AI integration focus.

Node.js · Claude API · Next.js

Daniel Mshindi

AI & Integrations

Designed the Claude classification pipeline and Zernio publishing architecture.

Prompt Engineering · APIs · Python

Built in 48 hours for AI Communication Bridge Hac

Every message. Every customer. One inbox.

TalkBridge AI is live. The pipeline works. The market is waiting.
